3. In our last annual Report we mentioned that there had been a decrease in the average daily number of persons relieved both in and out of the workhouses from February, 1892, to February, 1893, as compared with the number so relieved in the preceding year.

We have now to report that the returns for the weeks included in the statement on pages 2 and 3 show an increase in the average daily number of persons relieved in the workhouses, and a decrease in the average daily number of persons who received out-door relief during 1893-94 as compared with the numbers relieved in the year 1892-93.

The average daily number of persons in the workhouses during the weeks included in the statement was 40,961, of those maintained in public institutions and the District School at Trim,

1,152, and of those on out-door relief, 57,979, making a total of 100,092, which represents 2·17 per cent. of the estimated population of the country, and is less than the total average daily number in the year 1892–93 by 627.

4. Workhouse Rules.

In the Appendix* will be found a copy of an Order made by us during the past year amending the Workhouse Rules with regard to the use of tobacco by inmates of workhouses. The Order referred to authorizes Boards of Guardians to allow tobacco (or snuff) to inmates of the aged and infirm classes, upon passing a resolution to that effect, after due notice, specifying the quantity of either of these articles to be allowed to each person. Many Boards of Guardians have already availed themselves of the power given by this Order.

5. Classification of Workhouse Inmates.

In a circular issued in November last† we notified to Boards of Guardians that we would be prepared to consider a proposal to permit arrangements being made in any workhouse by which each aged married couple might occupy the same apartment subject to certain rules and conditions being observed, and the suggestion is receiving the attention of some Boards of Guardians. This will, of course, necessitate alterations being made in the workhouse buildings to provide separate apartments for the couples referred to.

6. Dietary.

We deemed it expedient to bring under the notice of Boards of Guardians the differences which existed between the scales of dietary for healthy inmates in force in Irish as compared with English and Scotch workhouses, with the view to steps being taken by them, if they so desired, to secure a more liberal diet for the inmates of their respective workhouses, especially those of the aged and infirm classes. As a result of this action on our part improved dietaries have been adopted by Boards of Guardians in many cases. A copy of the circular on this subject is inserted in the Appendix.‡

7. Seed Potatoes Supply Acts, 1890 and 1891.

As mentioned in our last Annual Report these Acts were put into operation in 110 Unions, and the sum which became due to the State in respect of the loans advanced for the benefit of Electoral Divisions in those Unions amounted to £240,405.

Under section 3 of the Act of 1890 this amount was repayable to the Commissioners of Public Works by two equal instalments, the first on the 1st day of August, 1892, and the second on the corresponding day in the following year. Of the first instalment, amounting to £120,202, there had been paid at the date of our last Report a sum of £118,457, which left a balance of £1,745 due by five Unions. This balance was paid, however, in the course of some months afterwards.

As regards the second instalment which fell due on the 1st of August last, £107,575 had been paid on the 31st of March in the

* See page 47. † See page 52. ‡ See page 53.

present year, leaving £12,627* due on that date by the Boards of Guardians of eighteen Unions.

8. SEED SUPPLY ACT, 1880.

It will be seen by paragraph 5 of our last Report that on the 31st of March, 1893, nine Unions remained indebted to the Commissioners of Public Works to the extent of £12,057† on account of the loans advanced to them under the provisions of the above mentioned Act.

No further payment has since been made on account of this indebtedness.

The total amount advanced under this Act, after crediting the Unions with certain sums refunded, was £598,306, of which there has been repaid a sum of £586,249.

9. The following table shows the numbers of persons in receipt of in-door and out-door relief, respectively, in the last week of each month from March, 1893, to March, 1894, as compared with the weeks of the previous corresponding period.

The returns for 1893–94 summarized above show an increase in the numbers of persons relieved in workhouses in nine of the weeks included in the table, as compared with the corresponding weeks of the previous year, and a decrease in the remaining weeks. There was a decrease in the numbers of persons who received out-door relief in ten of the weeks included in the table, and an increase in the remaining weeks.

* Further payments have since been made reducing this balance to £8,910, and the number of the indebted Unions to nine (see first note on pages 192–3).

† For the portion of this amount due in each case see column 8 of the table on pages 188 to 193, and the second note on pages 192–3.

There was an increase of 210 in the number suffering from fever or other infectious disease, and the total number of persons relieved in workhouses was greater than in the previous year by 8,570.

18. AMALGAMATION OF UNIONS.

In our last Annual Report we referred to the fact that we had under consideration the question of dissolving the Strokestown Union and adding the Electoral Divisions comprised therein to adjoining Unions. A difference of opinion has existed amongst the Guardians of the Strokestown Union respecting this proposal, and we have the matter still under consideration.

We have received applications from the Boards of Guardians of Ballymahon and Glennamaddy Unions for the dissolution of those Unions and their amalgamation with Unions adjoining. We have directed the necessary preliminary inquiry to be held by one of our Inspectors in each of these cases.

19. DISSOLUTION OF BOARD OF GUARDIANS.

In paragraph 16 of our last Report we mentioned that we had dissolved the Board of Guardians of the Tralee Union, and appointed paid officers in their stead. We have now to report that Guardians were elected in that Union at the general election of Guardians in the month of March last, and that at the present time there is not any Union under the management of paid officers.

20. District Schools.

The number of children maintained in the District School at Trim by the Boards of Guardians of the contributory Unions during each week from the 4th of March, 1893, to the 3rd of March last is shown in the table on page 3. On the 31st of March the number in the school was 190, of whom 49 were from Trim, 50 from Drogheda, 35 from Navan, 33 from Kells, and 23 from Dunshaughlin.

As stated in our last Annual Report the Unions of Croom, Kilmallock, Limerick, Listowel, Newcastle, and Rathkeale were combined by an Order, dated the 27th of February, 1893, for the purpose of forming a district school for the children of the Workhouses of those Unions. Since then the proceedings for establishing the school have been in progress. The School Board has been formed, and has obtained the disused workhouse premises at Glin, in which the necessary structural alterations are being made to adapt those buildings to the requirements of the school. It is expected that the alterations will soon be completed, and that the school will be opened during the present year.

21. Poor relief expenditure.

We now proceed to the statistics arising out of the accounts of the unions for the year ended the 29th of September, 1893, and we deal in the first place with poor relief expenditure.

Year ended 29th September	Net Annual value	Poor Rate lodged.	Poor Relief Expenditure during year.						Numbers relieved during year.			
			In-Maintenance and Clothing.	Out-door Relief.	Cost of Relief in Blind and Deaf and Dumb Institutions, and of patients in Extern Hospitals.	Salaries and Rations of Officers.	All other Expenditure.	Total Poor Relief Expenditure.	In workhouses.	Out-door.	In Blind and Deaf and Dumb Institutions.	Total number relieved.

Decrease,	—	—	20,184	8,185	—	—	—	11,282	—	9,973	—	1,385

From the above table it will be seen that there was a decrease of £20,184 in "in-maintenance and clothing," and of £8,188 in "out-door relief," while there was an increase of £984 in the "cost of relief in blind and deaf and dumb institutions, and of patients in extern hospitals," of £333 in "salaries and rations of officers," and of £15,773 in "all other poor relief expenditure," making a net decrease of £11,282 in the expenditure on the relief of the poor during the year 1893 as compared with 1892.

The decrease in the cost of in-maintenance and clothing is attributable to the low price of provisions, &c., during the year.

It will thus be seen that while the total expenditure for poor relief, medical relief, burial-grounds, sanitary measures, superannuation, payments under the Contagious Diseases (Animals) Act, payments under the National School Teachers Act and all other purposes was, in 1892, £1,406,261, the expenditure in 1893 was £1,397,032.

24. Towns Improvement (Ireland) Act, 1854.

We stated in our last report that we had under consideration an application of certain inhabitants of the City of Waterford to have the provisions of the Towns Improvement (Ireland) Act, 1854, carried into effect in that city. On the 25th of May last the necessary "Orders and Directions" were issued, in pursuance of section 4 of the Act, for the convening of a meeting for the purpose of considering the carrying of the Act into execution, but the determination of the meeting was not transmitted to us within the time prescribed by the Act.

In the case of an application of the Town Commissioners of Killarney, which was also under our consideration, for consent to the extension of the boundaries of the Town, we directed a local inquiry to be held into the matter by two of our Inspectors. Having duly considered their report and the minutes of evidence taken at the inquiry we did not think that it had been shown that the extension of the boundaries of the town proposed by the Commissioners was necessary, and we accordingly declined to consent to the proposal.

25. MEDICAL CHARITIES ACT, AND VACCINATION ACTS.

We next submit to your Excellency a report of the proceedings under these Acts for the year ended the 30th of September, 1893.

The annexed table exhibits, in the usual form, the fluctuations in the number of cases in which medical relief was afforded under the Medical Charities Act during each of the last twelve years ended on the 30th of September, for each Province and for the whole of Ireland.

Compared with the year ended in 1892 it will be seen that last year there was in Munster, Leinster, and Connaught an increase, and in Ulster a decrease, in the number of cases prescribed for at the dispensaries, while there was a decrease in each of the Provinces in the number of those who were attended at their own houses.

The net increase in the number of cases treated at dispensaries was 9,434, and the decrease in the number of those attended at their own homes 20,387, making a net decrease of 10,953 in the total number of cases in which medical relief was afforded by the medical officers of Dispensary Districts.

29. Small-pox.

During the past year small-pox has, on several occasions and in localities widely apart, been introduced into Ireland from places in the United Kingdom, and we are glad to record that the prompt and effective measures adopted by Irish Sanitary Authorities have in every instance been successful in arresting the spread of the disease. Irish Sanitary Authorities have spared no trouble or expense in dealing with the serious danger to which their districts were thus suddenly exposed.

The number of deaths in workhouses from small-pox and the number of cases of the disease treated by dispensary medical officers in each of the last thirty years are given in the following table:—

Deaths in workhouses from small-pox, and number of cases of small-pox treated by dispensary medical officers.

The following table shows the number of cases of fever reported as attended by the medical officers of dispensary districts in each year ended on the 30th of September during the last twenty-nine years.

The number of cases attended in 1893 was greater than in 1892 by 213, and we regret to have to add that we have observed indications of the increasing prevalence of typhus fever since the period covered by the returns for 1893.

32. Cholera

During the greater part of the past year our Medical Inspectors suspended the usual periodical inspections of their districts in order that all their time not occupied in holding formal inquiries might be devoted to advising Sanitary Authorities and their officers respecting the preparations necessary in view of the possibility of cholera extending to this portion of the United Kingdom. We also, during seven months, had the advantage of the temporary services of Dr. D. Edgar Flinn who assisted in the discharge of this important duty. Cholera although it obtained a footing in England fortunately did not extend to Ireland; and, while we gladly acknowledge the efforts made by many local authorities to prepare their districts against a formidable danger, we are sensible of the fact that in some localities much still remains to be accomplished in the direction of improved water supplies, efficient drainage and sewerage, the removal of nuisances, and the provision of adequate hospital accommodation and nursing arrangements.

33. Influenza.

In our report of 1890 we dealt with the severe epidemic of influenza which prevailed during the winter of 1889-90. Since then influenza has lingered in this part of the Kingdom, and, during each winter, has been severely felt in many localities. During the winter of 1893–94, the disease again appeared, but we are able to report that although widespread it has not been characterized by anything approaching the severity of the visitation of 1889–90.

In addition to the foregoing, we received a petition from the Corporation of the City of Dublin for a Provisional Order to empower them to put in force the provisions of the Lands Clauses Acts with reference to the purchase and taking of lands, otherwise than by agreement, for the purpose of obtaining a supply of water for their district from Lough Dan, in connection with, and in addition and supplemental to, their existing waterworks. The Corporation, however, subsequently intimated their intention of not proceeding further with the scheme.

We received also a petition from the Naas Rural Sanitary Authority praying for compulsory powers of purchase of land for a sewage farm at Kildare. The necessary local inquiry into the matter of the petition was opened at Kildare on the 10th of February last, but the Sanitary Authority decided to abandon the proposal.

We mentioned in our last Report that we had under consideration an application of the Athlone Urban Sanitary Authority for a Provisional Order to transfer to them from the Grand Juries of the counties of Roscommon and Westmeath the jurisdiction with respect to roads, bridges, footpaths, and public works within the town. The Grand Jury of the county of Westmeath consented to the making of the proposed Order, but the Grand Jury of the county of Roscommon refused to give their consent except on conditions which the Urban Authority would not accept; and we have decided, in exercise of the powers given to us by the 206th section of the Public Health Act, to make the Order sought for, notwithstanding the refusal of the county Roscommon Grand Jury to consent to it. We shall make a special report to Parliament, in pursuance of the requirements of the section referred to, stating the grounds on which we made such Order.

37. The Irish Education Acts, 1892 and 1893.

Under the 17th section of the Irish Education Act, 55 & 56 Vict., ch. 42, which received the Royal Assent on the 27th of June, 1892, power is given to acquire land compulsorily as a site for a National School or for the residence of a teacher of a National School. This Act was amended by the Act, 56 & 57 Vict., ch. 41, which became law on the 12th of September, 1893. In pursuance of these two enactments, persons approved of by the Commissioners of National Education as trustees may obtain from us a Provisional Order empowering them to put in force the provisions of the Lands Clauses Acts for the purpose of taking, otherwise than by agreement, land required for either of the objects mentioned. Since the passing of the amending Act referred to, we have received a petition with respect to obtaining a site required for a teacher's residence at Ballinvriskig, in the Cork Union, but proof has not yet been furnished that the preliminaries which must precede the application for the Order have been complied with.

40. Sewerage and Water supply.

Our report upon Public Health is continued from the last annual Report. Details were given therein of the operations in regard to sewerage and water-supply under the provisions of the Public Health Act, 1878, in continuation of the detail of proceedings under the Act of 1874; the extent of those operations is still in some degree measured in rural sanitary districts by the number of the Orders under seal fixing the areas of charge, and the loans borrowed for these purposes through the Public Works Commissioners.

Pnnted image digitised by the University of Southampton Library Digitisation Unit

The number of such Orders issued each year since 1875–6 is shown in the following table:—

The above table relates only to rural sanitary districts. In urban districts all sanitary expenses are chargeable upon funds levied from the whole district.

41. Loans.

In both urban and rural sanitary districts a considerable part of the expenditure on sewerage, water-supply, and other local improvements is defrayed by means of loans to the sanitary authorities which we sanction in pursuance of section 237 of the Public Health (Ireland) Act, 1878.

In the eighteen years ended the 31st of March, 1893, loans under the Sanitary Acts were sanctioned as follows:—

Following the course adopted in previous Reports, we now give tables showing what has been done by sanitary authorities under the improvement schemes authorized, and what is proposed to be done under further improvement schemes.

Table A shows that out of the 12,937 houses authorized, 10,352 have been provided, of which 10,272 are actually let, and that 640 others are at present in progress or contracted for. The aggregate monthly rent of the cottages built in each union and the amount of such rent in arrear are also shown.

Table B shows that further improvement schemes have been or are, we understand, about to be submitted to us, embracing 2,738 cottages at an estimated cost of £362,966.

TABLE A.—RETURN showing what has been done under improvement schemes authorized.

43. Housing of the Working Classes Act, 1890.

PART I.

The Corporation of Belfast, in continuation of their proceedings under Part I. of the Act, as recorded in our last report, have since submitted for approval a scheme for the purpose of providing new dwellings for the accommodation of persons belonging to the labouring classes to be displaced under the Improvement Scheme made under the Local Government Board (Ireland) Provisional Order Confirmation (No. 3) Act, 1892, 55 & 56 Vic., ch. ccx. A local inquiry was held into the sufficiency of the scheme, and deeming it adequate we signified our approval thereof.

The Provisional Order granted to the Corporation of Dublin, for the improvement of the "White's Lane area," to which we referred in paragraph 38 of our last report, was duly confirmed by Parliament; and the scheme submitted by the Corporation, for the purpose of providing new dwellings for the accommodation of persons belonging to the labouring classes to be displaced under the Improvement Scheme, was approved of by us after a local inquiry had been instituted as to its sufficiency. A loan of £5,000 has been sanctioned for the acquisition of the property.

PART III.

We sanctioned a loan of £1,100 to the Corporation of Limerick, and a sum of £1,400 to the Pembroke Township Commissioners, for the erection of working class lodging houses under Part III. of the Act. These amounts, added to £100,421 19*s.* 8*d.* previously sanctioned by us for such purposes, make a total of £102,921 19*s.* 8*d.* to the present date.

44. Departmental Arrangements.

In view of the prevalence of Cholera on the Continent and the consequent danger of its introduction into this country, we deemed it advisable to strengthen, temporarily, our staff of Medical Inspectors; and we, accordingly, appointed Dr. D. Edgar Flinn, F.R.C.S.I., whose services are already referred to in paragraph 32, to act as Medical Inspector from August, 1893, to the 31st of March, 1894.

We have no changes in regard to the permanent staff of the Department to report to your Excellency.

We have the honour to be

Your Excellency's obedient servants,

John Morley.
George Morris.
D. Harrel.
F. MacCabe.
H. A. Robinson.

I.—ORDERS.

No. 1.—GENERAL ORDER ASSESSING upon CONTRIBUTORY UNIONS under the National School Teachers Act their respective proportions of Results Fees for the year ended 31st March, 1894.

To the GUARDIANS of the POOR of the several Unions named in the Schedule to this Order; to the Treasurer of each of such Unions; and to all persons whom it may concern:

WHEREAS We, the Local Government Board for Ireland, have received from the Commissioners of National Education in Ireland an estimate for the year ending the 31st day of March, 1894, of the full amount payable as Results Fees in respect of Pupils attending the National Schools in each of the Unions which have become contributory Unions under an Act passed in the Thirty-ninth year of the Reign of Her present Majesty, Queen Victoria, entitled "An Act to provide for additional Payments to Teachers of National Schools in Ireland:"

AND WHEREAS the Unions which have become contributory under the said Act are those of which the names are placed in the first column of the Schedule hereto;

AND WHEREAS by the said Act it is enacted that the Commissioners of National Education shall require the Local Government Board in every year to provide a sum equal to one-third of such full amount payable as Results Fees as aforesaid, and that the said Local Government Board shall thereafter provide such sum in the manner by the

said Act prescribed; and the Local Government Board have received from the Commissioners of National Education a requisition to provide, in the year 1893–94, a sum equal to one-third of such full amount aforesaid:

AND WHEREAS it is by the said Act further enacted that upon the receipt of every such estimate the Local Government Board shall by an Order under their Seal assess upon each contributory union a sum equal to one-third of the full amount payable as results fees in respect of pupils attending the National Schools in such contributory union, and shall transmit a copy of such Order to the guardians and likewise to the treasurer of such contributory union, stating the amount so assessed on such contributory union:

AND WHEREAS it is by the said Act further enacted that forthwith on the receipt of such Order by the treasurer of any contributory union he shall, out of the funds then lying in his hands to the credit of the guardians of such union, or, if there shall be then no sufficient assets, out of the moneys next received by him and placed to the credit of such guardians, pay over the amount so assessed on such contributory union to the Bank of Ireland, to be there placed to the credit of the Commissioners of Education to a separate account, to be entitled "The Results Fees Account"; and that the guardians of such contributory union shall in their account with the electoral divisions of such contributory union debit each electoral division with its proportion of the said amount according to the net annual value for the time being of the property rateable to the rates for the relief of the destitute poor in each such division:

AND WHEREAS it is provided by the said Act that if in any financial year the sum provided by the Local Government Board in respect of any contributory union exceeds the amount required for the purposes of the Act in such year in respect of each contributory union, such overplus shall be carried to the credit of the next following financial year, and in such last-mentioned year only such sum shall be raised by assessment on such contributory union as shall be necessary in addition thereto to make up the sum which would in the ordinary course under the said Act be required to be provided by the Local Government Board in respect of such contributory union in such next following year:

AND WHEREAS we have received from the Commissioners of National Education a statement of the surplus of previous assessments, as set forth in the fourth column of the Schedule hereto:

NOW THEREFORE, in pursuance of the powers vested in us by the said Act, We do hereby assess upon each of the unions named in the first column of the Schedule hereto the amount set opposite to its name in the fifth column, such sum being equal to one-third of such full amount payable as Results Fees as aforesaid by such union as set forth in the second column of the said Schedule, less the amount of surplus of previous assessments as set forth in the fourth column.

Printed image digitised by the University of Southampton Library Digitisation Unit

NOW THEREFORE, in exercise of the powers vested in Us, We, the Local Government Board for Ireland, do hereby order and direct that the following regulations shall be substituted for these contained in the amending Order, namely :—

Article I. No pauper inmate of any workhouse shall have or consume any tobacco, or any spirituous or fermented liquor, except where it is ordered in writing by the Medical Officer for any individual pauper of the sick, infirm, or lunatic classes, or for any pauper engaged at work of an offensive nature which may render tobacco or a stimulant necessary for the preservation of his health. The Medical Officer shall set forth briefly in each case the reason for making such order, and his report on the subject shall be laid before the Board of Guardians at their next meeting.

Provided that tobacco or snuff may be supplied to the aged and infirm classes of workhouse inmates in any Union the Board of Guardians of which shall adopt a Resolution to that effect after fourteen days' notice of the intention to move such Resolution shall have been given to each member of the Board of Guardians—such previous notice to specify the quantity of tobacco, or snuff, proposed to be allowed to each inmate of the classes referred to.

II.—CIRCULARS.

No. 1.—TRAINING NURSES IN WORKHOUSE HOSPITALS.

Local Government Board,
Dublin, 3rd July, 1893.

SIR,

In connection with the Circulars which the Local Government Board for Ireland have addressed to each Sanitary Authority on the subject of precautions against Cholera the Board desire to draw the attention

Printed image digitised by the University of Southampton Library Digitisation Unit

of Boards of Guardians to the assistance it may be in their power to give Sanitary Authorities in the event of this portion of the United Kingdom being visited by any formidable epidemic or infectious disease.

The Local Government Board have reason to believe that if any dangerous infectious disease should visit Ireland and become epidemic, the number of trained nurses would be found inadequate to meet the demand for their services. In a few large cities and towns where there are communities of nursing sisters or other associations of trained nurses it is possible that a sufficient number might be available to meet an emergency, but the Local Government Board are satisfied that the supply of qualified nurses would fall far short of the applications for their services which would be likely to pour in from rural districts throughout the country.

Under these circumstances the Local Government Board think it well to suggest to Boards of Guardians that they might make use of the workhouse hospitals for the purpose of training nurses whose services would be available in the event of Cholera or other formidable infectious disease appearing within the Unions. It appears to the Local Government Board that the Guardians of each Union might select a limited number of suitable persons willing to enter their service for training, and the Local Government Board feel assured that if Boards of Guardians appointed a few young women as probationary assistant nurses in the hospital and fever wards of each workhouse the medical officers in charge and the regularly appointed nurses would be found willing to afford them such practical instruction in the nursing and care of the sick as would in some degree qualify them to attend the sick poor in any epidemic which might arise. The Guardians are aware that under Article 24 of the General Regulations they are empowered to appoint temporary assistants, and the Local Government Board will be prepared to sanction any reasonable expenditure undertaken in order to carry into effect the suggestion contained in this Circular.

The Local Government Board avail themselves of this opportunity to point out that they have frequently found it necessary to remonstrate with Boards of Guardians in respect of the selection of untrained persons for the responsible post of hospital nurse. The course now recommended to the notice of Boards of Guardians, if adopted, would have the advantage of providing in each Union a certain number of trained nurses who would probably become candidates for any vacancy which might arise amongst the permanent staff employed in each Union hospital.

I am, sir, your obedient servant,

THOS. A. MOONEY, Secretary.

To the Clerk of each Union.

No. 2.—SCALE for the PAYMENT of CLERKS of UNIONS and COLLECTORS of POOR RATE for DUTIES under the REPRESENTATION of the PEOPLE ACTS.

Local Government Board,
Dublin, 3rd October, 1893.

SIR,

I am directed by the Local Government Board for Ireland to state that, in consequence of representations made by certain Boards of Guardians, the Board have decided to alter the scale fixed by their Order of the 10th of February, 1891, for the payment of Clerks of Unions

and Poor Rate Collectors for duties under the Representation of the People Acts, and they have, accordingly, made an Order,* a copy of which is enclosed, revoking the Order referred to, and fixing a scale according to which the Clerks and Poor Rate Collectors shall henceforward be paid for their services, and for expenses incurred by them in execution of their duties under the Acts mentioned.

I am, sir, your obedient servant,

THOS. A. MOONEY, Secretary.

To the Clerk of each Union.

No. 3.—AMENDMENT of the WORKHOUSE RULES.

Local Government Board,
Dublin, 15th November, 1893.

SIR,

I am directed by the Local Government Board for Ireland to forward, herewith, for the information of the Board of Guardians, a copy of an Order† which the Board have made amending the Regulations hitherto in force with regard to the use of tobacco by inmates of Workhouses.

The Guardians will observe that they are now authorized to give tobacco (or snuff) to inmates of the aged and infirm classes upon passing a resolution to that effect after due notice specifying the amount of either of these articles to be allowed to each person of the classes referred to. Where such a resolution has been passed, the Guardians should cause a list to be prepared of the inmates of the aged and infirm classes to whom tobacco (or snuff) may properly be given, and the Master should be directed to remove from this list the names of paupers quitting the Workhouse, and to add to it the names of those who may from time to time become entitled to receive these articles. All such alterations in the list should be reported to the Board of Guardians.

I am at the same time to call the Guardians' attention to the concluding paragraph of the accompanying Order, which amends the 31st Article of the Workhouse Rules, and empowers the Guardians, from time to time by resolution, to determine in what rooms and at what times smoking shall be allowed in the Workhouse, and directs that no pauper shall smoke in the Workhouse in any other room or at any other time than is so allowed.

I am, sir, your obedient servant,

THOS. A. MOONEY, Secretary.

To the Clerk of each Union.

No. 4.—CLASSIFICATION of WORKHOUSE INMATES.—AGED MARRIED COUPLES.

Local Government Board,
Dublin, 15th November, 1893.

SIR,

The Local Government Board for Ireland desire to inform the Board of Guardians that the fact has been brought under their notice that in recent years the Board of Supervision in Scotland upon application made to them have sanctioned the association by day and night of aged

married couples in Poorhouses subject to the following rules and conditions :—

"(1.) When any two persons, being husband and wife, shall be admitted into "the Poorhouse, it shall be lawful for the House Committee to permit, in their "discretion, such husband and wife to occupy the same apartment, provided (*a*) "that they both desire to do so ; (*b*) that they are both above the age of sixty "years, and (*c*) that no other inmate is placed in the apartment so occupied.

"(2.) Every such case shall be reported forthwith to the Board of Supervision.

"(3.) The sanction of the Board hereby given shall be held to be experi-"mental only, and the House Committee are required to report to the Board "at the end of twelve months from this date as to the effect of its operation, "especially whether it has impaired the efficacy of the Poorhouse test or has "interfered with the discipline of the Poorhouse."

In England provision is made in this respect under 10 and 11 Vic., cap. 109, section 23.

The Local Government Board for Ireland will be prepared to consider any proposal to permit a similar indulgence in Workhouses in this country, subject to like conditions, and provided that a Board of Guardians submitting such a proposal shall carry out such alterations in the Workhouse buildings as may be necessary to provide separate apartments for aged married couples to the satisfaction of the Local Government Board before their sanction to the arrangement is finally given.

I am, sir, your obedient servant,

THOS. A. MOONEY, Secretary.

To the Clerk of each Union.

No. 5.—DIETARY in WORKHOUSES.

Local Government Board,
Dublin, 21st November, 1893.

SIR,

The Local Government Board for Ireland desire to inform the Board of Guardians that their attention has been directed to the differences which exist between the scales of dietary for healthy inmates in force in Irish and in English and Scotch Workhouses. The Board have found on comparing the dietaries in use in selected Unions in the three countries that those authorized in England and Scotland are generally better, more varied, and more palatable than the dietaries allowed in this country. This statement, however, does not apply to the Hospital diets, which, as the Guardians are aware, are subject to the control of the Medical Officer in each Workhouse.

The Board have deemed it expedient to bring this matter under the notice of the Guardians, so that, if they desire it, steps may be taken to secure a somewhat more liberal diet for Workhouse inmates, especially those of the aged and infirm classes. To aid the Board of Guardians in coming to a decision, the Board have caused to be printed in the schedule to this circular copies of the diet scales in use in three English and in three Scotch Workhouses, and they suggest that the Guardians should, in consultation with their Medical Officer, take the subject into consideration, and furnish the Local Government Board with their views as to the desirability of any alteration in the present dietary.

I am to add that the Board will consider favourably any proposal made by the Guardians to grant an extra allowance of tea to such female inmates as the Board of Guardians and their Medical Officer may consider would be benefited thereby.

I am, sir, your obedient servant,

THOS. A. MOONEY, Secretary.

To the Clerk of each Union.

No. 6.—Lunatics Dying in Workhouses.—Notice to Coroner.

Local Government Board,
Dublin, 11th December, 1893.

Sir,—I am directed by the Local Government Board for Ireland to state, for the information of the Board of Guardians, that their attention has been drawn to the practice which prevails in District Lunatic Asylums of notifying to the Coroner the death of any lunatic inmate. The Board consider it desirable that a similar course should be observed with regard to lunatics dying in Workhouses, and they have, therefore, to request that the Guardians will be so good as to direct that in future a notification shall be sent to the Coroner of the death of any inmate of the Workhouse who, at the time of decease, is classed as a lunatic.

I am, sir, your obedient servant,

Thos. A. Mooney, Secretary.

To the Clerk of each Union.

No. 7.—National School Teachers (Ireland) Act, 1875.

Local Government Board,
Sir, Dublin, 30th December, 1893.

In pursuance of the 4th Section of "The National School Teachers (Ireland) Act, 1875," the Local Government Board for Ireland transmit to you, herewith, to be laid before the Board of Guardians of Union, the notice which they are required by that section to transmit, on or before the 1st day of January, to the Guardians of every union which shall not at such time be a contributory union within the meaning of the Act.

The Notice now transmitted, as in the case of the notice which was transmitted on the 30th December, 1892, requires the Guardians within Forty days from the receipt thereof to inform the Local Government Board whether, for the purpose of increasing the remuneration of the teachers of National Schools within the union, they are willing to make their union a contributory union within the meaning of the Act, and the Guardians will observe therefore that by the present notice they are called upon, in pursuance of the requirement of the Act, to decide whether they will become contributory for the year 1894–95, (that is for the year commencing on the 1st April next), and subsequent years, until the resolution to contribute be legally revoked.

Printed image digitised by the University of Southampton Library Digitisation Unit

The Board forwarded with their circular of the 30th August, 1875, a copy of the Act, and of various other documents relating to this subject, and they desire to refer the Board of Guardians to that circular and the documents which accompanied it for any information which they may require before replying to the enclosed notice.

The Board have to add that the Commissioners of National Education have furnished them with an estimate of the probable amount which will be payable by the Guardians of the several unions in results fees to teachers of National Schools within the respective unions for the year 1894–95, and the liability which, according to this estimate, the Guardians will incur by making their union a contributory one is not expected to exceed £

In the event of the Guardians resolving to become a contributory union within the meaning of the Act, you should, immediately upon the passing of such resolution, forward a copy of the same signed by the Chairman as well as by yourself to the Commissioners of National Education, and to the Local Government Board, in accordance with the terms of Section 6 of the Act.

I am, sir, your obedient servant,

THOS. A. MOONEY, Secretary.

To the Clerk, —— Union.

Sir,—I am directed by the Local Government Board for Ireland to forward, herewith, for the information of the Board of Guardians, a copy of an Order* made by them on the 29th ultimo reducing the rating qualification for the office of Guardian to £8 for every Electoral Division in Ireland in which the qualification was previously higher than that amount.

No. 9.—Rate Books.—Separate Valuation of Land and Buildings.

Local Government Board,
Dublin, 15th February, 1894.

Sir,—I am directed by the Local Government Board for Ireland to state, for the information of Boards of Guardians, that they have been informed by the Commissioner of Valuation that valuation lists showing the value of land and of buildings in separate columns are being issued gradually to the Unions throughout Ireland. A number of Unions will be supplied with this form during the present year; at next revision the new form will be supplied to additional Unions, and in 1896 the remaining Unions in Ireland will be so supplied.

In view of this intimation the Board have to point out that in any case in which the valuation list gives the valuations of land and buildings separately the word "land" and the description of the buildings should be entered on separate lines in the column for the "description of property rated, &c.," and the valuation of those hereditaments should be entered opposite to them, respectively, on separate lines, also, in the column headed "net annual value."

I am, sir, your obedient servant,

Thos. A. Mooney, Secretary.

To the Clerk of each Union

No. 2.—Vaccination.

Local Government Board,
Dublin, 21st March, 1894.

Sir,

The Local Government Board for Ireland have observed from the reports of Medical Officers of Dispensary Districts that during the quarter ended the 31st of December last Vaccination has been postponed in many parts of Ireland owing to the presence of measles or influenza, and, in some instances, on account of unfavourable weather. During the same period smallpox has been present in centres of population throughout England, and some cases have already been introduced into Ireland. Smallpox has not, as yet, disappeared from England, and, as large numbers of children whose age exceeds three months remain in Ireland unprotected by Vaccination, the Local Government Board request that you will devote particular attention to the subject of Vaccination during the spring and early summer months.

The Local Government Board avail themselves of this opportunity for again impressing on you, as a public vaccinator, the importance of not certifying any child to be insusceptible until after three separate attempts shall have been made to vaccinate with fresh lymph, from arm to arm.

The attention of the Local Government Board has been drawn to the practice which prevails in some parts of the country of using "shields" to protect the recently vaccinated arms of children. The Board trust that if shields are used in your district you will, as far as possible, discourage their employment. It is found that if the tapes securing the shield are tightened to keep the appliance *in situ* they obstruct the circulation to a sufficient extent to interfere with the natural development and progress of the vesicles, and if they are loosely applied the shield frequently wounds the vesicles, and, from the irritation caused, increases inflammatory action in the areola. Shields are open to the further grave objection that as they are frequently transferred from child to child they become the carriers of septic and other germs, leading to erysipelatous inflammation and blood poisoning. The Local Government Board consider that the old method of securing the sleeve of the child's dress by a ribbon or tape so as to leave the vaccinated spots uncovered is to be preferred to the use of any form of shield.

I am, sir, your obedient servant,

Thos. A. Mooney, Secretary.

To each Medical Officer of a Dispensary District.

No. 3.—Committees of Management of Dispensary Districts.

Local Government Board,
Dublin, 22nd March, 1894.

Sir,

The Local Government Board for Ireland desire to call your attention to the circular of the Poor Law Commissioners dated the 21st of March, 1862, relating to the annual appointment of dispensary

committees and wardens, and to the extracts from previous circulars appended thereto, and they request that you will take the necessary steps, as pointed out in the circular referred to, to place before the Board of Guardians, after the annual election of guardians, a correct list of the members of the Board entitled under section 7 of the Medical Charities Act (14 & 15 Vic., Cap. 68) to be members of the respective dispensary committees in the union. The Guardians should then, in each case in which it may be necessary to do so, elect a sufficient number of ratepayers possessing the qualifications prescribed by the section mentioned, so that the number of members of each committee shall amount to the number authorised by sealed Order.

This ought to be done by resolution and recorded on the minutes.

If it should appear from the Returning Officer's return of the election that there are any vacancies in the office of guardian, the Board of Guardians should elect only such a number of qualified ratepayers to serve on the dispensary committees as would be necessary if the number of guardians were complete, so that the persons who may be returned to supply the vacancies may become members of the respective committees upon which they may be qualified and entitled to act.

As soon as the committee shall have been completed for any dispensary district, you should give notice to each member thereof of the day upon which the election of chairman and vice-chairman and other honorary officers for the year will take place, in accordance with articles 6 & 7 of the Dispensary Regulations of 3rd November, 1885.

The Board enclose three copies of a form for a return of officers of the several dispensary committees in the union to enable you to make the return in duplicate to this office and to retain a copy for the use of the Board of Guardians, and they request that you will procure the necessary information with the least possible delay and then forward the return to this office.

I am, sir, your obedient servant,

THOS. A. MOONEY, Secretary.

To the Clerk of each Union.

APPENDIX C.

And Whereas by an Order dated the 20th day of February, 1892, which was duly made under the provisions of the said Section, and was confirmed by an Order made by the Lord Lieutenant by and with the advice of the Privy Council on the 24th day of May, 1892, We, the Local Government Board for Ireland, prescribed Regulations (hereinafter referred to as "the Regulations") in regard to the creation, issue, transfer, and redemption of, and other dealings with, any Stock which any Urban Sanitary Authority (having adopted Part V. of the said Act) might create with Our consent under the Regulations in exercise of any statutory borrowing power as defined in Article 1 of the Regulations;

And Whereas the Commissioners of the Township of Pembroke, in the County of Dublin, being the Urban Sanitary Authority (hereinafter referred to as "the Sanitary Authority") of the Urban Sanitary District consisting of the said Township, have adopted Part V. of the said Act, and, having certain borrowing powers hereinafter referred to, have made application to Us for Our consent to the exercise of such powers by the creation and issue of Stock;

And Whereas the borrowing powers hereinbefore referred to are the statutory borrowing powers (as defined in Article 1 of the Regulations) of the Sanitary Authority in respect of the several sums specified in Column 3 of the Schedule to this Order, and in respect of the expenses incurred in and about the creation and issue of Stock under this Order;

And Whereas the said sums specified in the said Schedule are amounts which on the Twenty-ninth day of April, 1893, the Sanitary Authority will have power to borrow or continue on loan, or re-borrow, or redeem, or pay off, in respect of amounts borrowed, by the Sanitary Authority, under the authority and for the purposes specified in Columns 1 and 2 of the said Schedule, respectively;

And Whereas under the Regulations the expenses incurred by the Sanitary Authority in or about the creation and issue of any amount of Stock, including any sum paid by the Sanitary Authority for composition for stamp duty thereon and any other expenses properly chargeable to capital, are to be deemed money raisable under a statutory borrowing power:

Now, Therefore, in pursuance of the powers given to Us in that behalf, We do hereby Consent, Prescribe, Approve, and Order as follows; namely,—

II.—CIRCULARS.

No 1.—Factory and Workshop Acts.

Local Government Board,
Dublin, 13th June, 1893.

Sir,

Adverting to their letter of the 6th of September last forwarding extracts from the Factory and Workshop Acts, 1878-91, containing certain provisions of those Acts which affect Sanitary Authorities in Ireland, I am directed by the Local Government Board for Ireland to draw the attention of the Sanitary authority to the duties devolving upon them under the provisions referred to.

Important duties are placed upon Sanitary Authorities by the Acts mentioned in regard to the sanitary condition of factories, workshops, and bakehouses, and, whilst reminding Sanitary Authorities of their duties and powers under each Act, the Board desire to call particular attention to the provisions contained in the Act of 1891 respecting the sanitary condition of workshops.

Printed image digitised by the University of Southampton Library Digitisation Unit

The expression workshop is defined in Section 93 of the Act of 1878.

It is provided by Section 3 (2) of the Act of 1891 that, for the purpose of their duties with respect to workshops, Sanitary Authorities and their officers shall, without prejudice to their other powers, have all such powers of entry, inspection, taking legal proceedings or otherwise, as an Inspector of Factories has under the Act of 1878.

Section 4 of the Act of 1891 provides that workshops and workplaces shall be kept free from effluvia arising from any drain, water closet, earth closet, privy, urinal, or other nuisance, and unless so kept shall be deemed to be a nuisance liable to be dealt with summarily under the law relating to Public Health, and, further, provides that where on the certificate of a Medical Officer of Health, or Inspector of Nuisances, it appears to any Sanitary Authority that the limewashing, cleansing, or purifying of a workshop or of any part thereof is necessary for the health of the persons employed therein, the Sanitary Authority shall give notice in writing to the owner or occupier of the workshop to limewash, cleanse, or purify the same, or part thereof, as the case may require. If the person to whom notice is so given fails to comply therewith within the time therein specified, he shall be liable to a fine not exceeding ten shillings for every day during which he continues to make default, and the Sanitary Authority may, if they think fit, cause the workshop or part to be limewashed, cleansed, or purified, and may recover in a summary manner the expenses incurred by them in so doing from the person in default.

Section 4 of the Act of 1878 provides that where it appears to an Inspector of Factories that any act, neglect, or default in relation to any drain, water closet, earth closet, privy, ashpit, water-supply, nuisance, or other matter in a factory or workshop is punishable or remediable under the law relating to public health, but not under that Act, the Inspector shall give notice in writing of such act, neglect, or default to the Sanitary Authority in whose district the factory or workshop is situate, and it shall be the duty of the Sanitary Authority to make such inquiry into the subject of the notice, and take such action thereon, as they may consider proper for the purpose of enforcing the law. For the purposes of this Section the Inspector of Factories may take with him into the factory or workshop a Medical Officer of Health, Inspector of Nuisances, or other officer of the Sanitary Authority. Section 2 (1) of the Act of 1891 applies this enactment to workshops conducted on the system of not employing any child, young person, or woman therein, and also to laundries.

Section 2 (2) of the Act of 1891 provides that where an Inspector of Factories has given notice to the Sanitary Authority under Section 4 of the Act of 1878 as amended by the Act of 1891, and proceedings are not taken within a reasonable time for punishing or remedying the act, neglect, or default, the Inspector may take the like proceedings for punishing or remedying the same as the Sanitary Authority might have taken, and shall be entitled to recover from the Sanitary Authority all such expenses in and about the proceedings as the Inspector incurs and are not recovered from any other person and have not been incurred in any unsuccessful proceedings.

By Section 1 of the Act of 1891 the Secretary of State is empowered in cases in which he is satisfied that the provisions of the law relating to public health as to effluvia arising from any drain, privy, or other nuisance, or with respect to cleanliness, ventilation, overcrowding, or limewashing are not observed in any workshops or class of workshops (including workshops conducted on the system of not employing any

child, young person, or woman therein) or laundries, he may, if he thinks fit, by order, authorize and direct an Inspector of Factories to take, during such period as may be mentioned in the order, such steps as appear necessary or proper for enforcing the said provisions. An Inspector so authorized will have the same powers of taking proceedings and of recovering the expenses from the Sanitary Authority as those possessed by an Inspector under the provisions of Section 2 (2) of the Act which are mentioned above. It will be observed that this Section applies to laundries as well as to workshops.

Section 75 of the Act of 1878 (which requires notice to be given to an Inspector of Factories of the occupation of a factory) is applied to workshops by Section 26 of the Act of 1891, and the last-mentioned section provides that on receiving notice of the occupation of a workshop the Inspector of Factories shall forthwith forward the notice to the Sanitary Authority of the district in which the workshop is situate.

If any child, young person, or woman, as defined in Section 96 of the Act of 1878, is employed in a workshop, and the Medical Officer of the Sanitary Authority becomes aware thereof, Sub-Section 3 of Section 3 of the Act of 1891 directs that he shall, forthwith, give notice thereof to the Factory Inspector of the district.

A factory or workshop in which there is a contravention of any requirement made under the Act of 1891 shall be deemed not to be kept in conformity with the Act of 1878, and it will be seen from Section 81 of the last-mentioned Act that in such a case the occupier of the factory or workshop would be liable to a fine not exceeding ten pounds.

In addition to the clauses above adverted to the Act of 1891 contains other important provisions including provisions against fire in factories and some amendments of the previous Acts.

The Board trust that every effort will be made by the Sanitary Authority to ensure that their duties under the Act of 1891, as well as those under the Acts of 1878 and 1883, shall be satisfactorily discharged.

THOS. A. MOONEY, Secretary.

Act, for the purpose of erecting thereon a temporary hospital, provided they shall have first obtained the permission in writing of the Local Government Board specifying such site, and shall have given the prescribed notice.

The 4th section of the Act directs the manner in which the amount of rent and compensation to the owner or occupier of the land shall be determined; and it is enacted in the 5th section that within two months after it has been certified to the Sanitary Authority by the Medical Officers of Health of the Sanitary District that Cholera has ceased to exist within the district, and that there is no longer any occasion for the temporary hospital, the Sanitary Authority shall remove the same and all foundations, débris, and other materials, and restore the surface of the ground to the same state, so far as may be possible, in which it was found by them on taking possession, and shall deliver up the possession of the land so taken to the person in whose occupation it was immediately prior to the taking possession thereof.

The Board invite the attention of the Sanitary Authority to the provisions of the Act, generally, and they trust that in the event of Cholera appearing in this country they will, if the local circumstances render it necessary, lose no time in availing themselves of the powers conferred on them.

The Act will expire on the 1st of May next.

I am, sir, your obedient servant,

Thos. A. Mooney, Secretary.

Sanitary Authority, Urban and Rural.

No. 4.—Cholera Precautions.—Forwarding to Sanitary Authorities a Copy of a Memorandum on the Subject of Cholera prepared by the Medical Officer of the Local Government Board, England.

Local Government Board,
Dublin, 4th July, 1893.

Sir,—The Local Government Board for Ireland forward, for the information of the Sanitary Authority, a copy of a Memorandum prepared by the Medical Officer of the Local Government Board, England, which has been communicated by that Board to Sanitary Authorities, on the subject of Cholera :—

"Asiatic Cholera first made its appearance in England in 1831-2. Including both the epidemic of that date and the occurrence of imported cases of the disease last Autumn, there have been seven occasions on which Cholera has found its way to this country.

"On the first four occasions ending with the outbreak of 1866, the disease succeeded in establishing itself amongst us in epidemic form. But on the three subsequent occasions it was practically limited to imported cases, and no extension took place.

"On five of the seven occasions referred to Cholera travelled across Russia to Baltic ports; and when the disease has followed this route it has commonly extended also to Continental ports on the North Sea and the British Channel. The disease has several times reached England from these ports, notably from Hamburg, and when this has been the case its incidence on this country has not been greatest during the first year of its European prevalence, but on recrudescence of the infection in the second or even the third year.

"The present Memorandum does not profess to suggest any explanation of this occurrence. Neither is it intended to imply that the same sequence of events will necessarily occur again. But it may be noted that whereas a considerable portion of the Summer of 1892 was taken up with the diffusion of Cholera across the Continent of Europe, the disease only reaching ports on the North Sea and British Channel in the month of August, recrudescence of the disease this year along the coast line of Western Europe may well occur at a date which would involve danger to this country during a longer term of our Summer and Autumn season than was the case last year.

"As yet there are happily no indications of any general recurrence of Cholera either in North Sea or Baltic Ports; but, notwithstanding this, occasional attacks of that disease have taken place during the present year in Hamburg and in the adjacent town of Altona. In the French Department of Morbihan, Province of Brittany, Cholera has hardly ceased to prevail since the beginning of November, 1892. The disease is still present there; over 200 deaths having been recorded from that Department during the months of March, April, and May of this year. The largest portion of this mortality has fallen on the port-town of Lorient. The disease has also shown itself at other points on the French coast.

"Having regard to these circumstances, it is important that the Sanitary Authorities of England and Wales should be prepared in advance to prevent extension of any Cholera that may be imported into their districts, and this duty devolves especially on the authorities of those districts into which cases of imported Cholera are most likely to make their way."

The Circulars addressed by the Local Government for Ireland to Sanitary Authorities during the past twelve months instructing them as to the principal points to be attended to for the defence of their districts against Cholera, together with the conferences which have taken place between them and their officers and the Medical Inspectors of the Board, have afforded Sanitary Authorities all the necessary information to enable them to prepare for any emergency likely to arise

Printed image digitised by the University of Southampton Library Digitisation Unit

during the Summer and approaching Autumn, and the Local Government Board trust that no part of this country will be found unprepared to meet the possible approach of Cholera. In the event of Cholera obtaining a footing in other parts of the United Kingdom the Board apprehend that the extension of the disease to Ireland may occur without much warning; and it now seems to the Local Government Board to be the duty of Irish Sanitary Authorities to review the precautionary measures they have organized, and to satisfy themselves that, if the Local Government Board should find it necessary to issue Regulations under Section 149 of the Public Health Act of 1878, the machinery which has been provisionally arranged in each district will be found adequate for carrying into effect the provisions set forth in the section referred to. The Local Government Board consider that Sanitary Authorities will act wisely in keeping these provisions in view, and in perfecting in each district the arrangements necessary for the protection of the population.

I am, sir, your obedient servant,

THOS. A. MOONEY, Secretary.

To the Executive Sanitary Officer
of each Sanitary Authority, Urban and Rural.

No. 5.—CHOLERA PRECAUTIONS.—CONDITION of SANITARY DISTRICTS.

Local Government Board, Dublin,
20th September, 1893.

SIR,

In view of the existence of Cholera in England, the Local Government Board for Ireland desire to draw the special attention of the Sanitary Authority to the circulars which the Board have addressed to them, from time to time, containing suggestions as to precautions which might with advantage be adopted, and reminding them of the duties devolving upon them as the authority entrusted with the administration of the Public Health Acts in their district.

The Board in their letter of the 4th of November last reminded Sanitary Authorities of the duty imposed upon them by section 108 of the "Public Health (Ireland) Act, 1878," in relation to the regular inspection of their districts, and they would now wish to be informed by the Sanitary Authority whether, as the result of the systematic examination of their district required by the provisions of the section mentioned as well as of the action taken by them in accordance with the advice contained in the Board's circulars generally, the Sanitary Authority are fully satisfied as to the condition of the district committed to their charge, especially in regard to:—

1. The character of the water supply;
2. The sufficiency and suitability of hospital accommodation for the isolation and treatment of cholera cases;
3. The condition of the sewerage and drainage;
4. The absence of nuisances (as defined by sections 57 and 107 of the "Public Health (Ireland) Act, 1878,"); and
5. The cleanliness of the dwellings occupied by the poorer classes.

The duty of the Sanitary Authority in relation to the points specifically mentioned above demands their earnest and sustained attention,

Printed image digitised by the University of Southampton Library Digitisation Unit

and if, in respect of any one of them, the district is not adequately protected against the invasion of infectious disease, the Sanitary Authority should at once devote their attention to the remedying of any defects which may be found to exist.

I am, sir, your obedient servant,

THOS. A. MOONEY, Secretary.

To the Executive Sanitary Officer
of each Sanitary Authority, Urban and Rural.

No. 6.—CHOLERA.—IMPORTATION of BEDDING and CLOTHING.

Local Government Board, Dublin,

SIR,

I am directed by the Local Government Board for Ireland to advert to the Orders which they issued on the 26th of July and the 17th of August, 1892, directing that no rags from France or from any port on the Black Sea or Sea of Azov, whether in Russia, Roumania, Bulgaria, or Turkey, or from any other port of Turkey in Asia, and no rags, bedding, or disused or filthy clothing from any foreign port in Europe north of Dunkirk, other than ports of Norway, Sweden, and Denmark, should be delivered overside, except for the purpose of export, nor landed in any port or place in Ireland, and also to the Order which the Board issued on the 20th of December last amending in certain particulars the Orders referred to above, and to state that the Board have determined to relax the requirements of those Orders, so far as they relate to rags packed in bales and imported as merchandize.

The Board have accordingly issued an Order,* two copies of which are enclosed, rescinding the Orders above mentioned and prescribing other regulations. The regulations contained in the new Order extend only to dirty bedding or disused or filthy clothing, and it is provided that the terms "bedding" and "clothing" shall include such articles when torn up, but shall not include rags packed in bales and imported as merchandize. The limit of time within which dirty bedding or disused or filthy clothing which is delivered overside or landed for the purpose of disinfection is required to be disinfected has been fixed at forty-eight hours, and it is provided that any such articles delivered overside or landed for the purpose referred to which are not disinfected within the time fixed shall be destroyed within twenty-four hours by the person having control of the same, and that similar articles delivered overside or landed for destruction shall be destroyed by such person within twenty-four hours.

The Order further provides for the destruction by the Sanitary Authority, or their Medical Officer of Health, at the cost of the person having control over the same, of any bedding or clothing delivered overside or landed for the purpose of disinfection or destruction and not disinfected or destroyed by such person within the prescribed time.

The Order comes into operation on the 19th instant, and will continue in force until the Board, by order, otherwise direct.
